

# Service Technician - HVAC

- Commercial or Industrial Back Ground
- Join a Progressive Company
- Based in Bunbury, Western Australia

**West Australian Mechanical Services is a wholly owned and operated WA company, we are an Industry leader in providing mechanical services as a total package including support solutions to the commercial and industrial construction sectors . Our business model is based on repeat business and this is supported by the growth we have been able to achieve across all of our business divisions.**

To drive the success of our Service Division and expansion into the South West we require a Service Technician to join our Service Team. You will be responsible for general maintenance and service to central plant and general plant in Bunbury and throughout the southwest.

You are a trade qualified Refrigeration Technician, Your high level of experience and professionalism in the service and maintenance field of the mechanical services industry will allow you to work independently, and your detailed knowledge of a range of commercial HVAC systems will make you adaptable to any problem you may encounter. You will have the opportunity to be involved in and be a contributor to the outcomes of our expansion with training provided as a priority to your personal development

To be successful in your application for this role you must possess:

- Trade Qualifications.
- Hold all Relevant Licenses to carry out your role.
- Enthusiasm and a 'can do' attitude.
- Excellent communication skills.

Successful applicants will be remunerated generously, you will be supplied with a fully fitted out and maintained service vehicle and all other items needed to carry out your role will be supplied. If you are looking to join a business that values their people, provides good career opportunities, we would like to meet you.
